

ADITYA GURAV

Artificial Intelligence and Data Science Student

+91 9322015211 adityagurav54@gmail.com GitHub | LinkedIn Portfolio Baramati, India

SUMMARY

Final-year Artificial Intelligence & Data Science student with hands-on experience in full-stack development and software engineering. Built and deployed over 5 full-stack applications on AWS and Firebase, improving user engagement by up to 70% in targeted modules. Proficient in Angular, Firebase, NodeJS, and Python. Passionate about learning, collaborative team-based problem solving, and building impactful tech solutions.

EDUCATION

Bachelor of Engineering

Vidya Pratishthan's Kamalnayan Bajaj Institute of Engineering and Technology

GPA 3.48 / 4.0

08/2022 - 05/2026
Baramati, India

Higher Secondary Certificate (HSC)

Vidya Pratishthan Someshwar English Medium School & Jr College (CBSE)

GPA 2.82 / 4.0

01/2020 - 05/2022
Baramati, India

Secondary School Certificate (SSC)

S. D. Sahyadri Public School, Baramati (CBSE)

GPA 3.32 / 4.0

01/2018 - 05/2020
Baramati, India

LANGUAGES

English, Hindi Advanced

Marathi Native

EXPERIENCE

Software Engineering Intern

Kredendum LLP

01/2025 - 02/2025 Pune, India

- Automated license generation using Python scripts, reducing manual work by 80%.
- Built data modeling tools that improved database query performance by 40%.
- Worked with AngularJS, NodeJS, and Jira in an agile environment.
- [Internship Portfolio Link](#).

Tech Team Lead

GDG On-Campus, VPKBIET

08/2025 - Present Baramati, India

- Led a team of five developers and successfully delivered two technical projects.
- Conducted 3 workshops with 200+ attendees; increased engagement by 15%.

SKILLS

AWS	AWS EC2	Angular	Java
Data Structures	EC2	GitHub	
Google Firebase	Google Maps		
Google Maps API	JIRA	MongoDB	
Microsoft Power BI	OOP	PHP	C/C++
PostgreSQL	Python	SQL	TypeScript
Node.js	Gmail		

KEY ACHIEVEMENTS

NSS Camp Leadership

Led a team during an NSS camp, showcasing leadership and organizational skills

College Event Organization

Organized a major college event, managing logistics and coordination for 2,000 attendees

Certifications

PROJECTS

Hostel Management System

hostelight-core.web.app

Tech Stack - Angular, Firebase, Gemini AI, Cloud Messaging [Live Demo](#)

- Developed a web application to automate and streamline hostel management for administrators, wardens, and students
- Designed role-based dashboards and modules to the specific needs of different users.
- Increased administrative efficiency by 70% by automating core hostel operations.

AI-Powered Chat Application

brixa-ai.web.app

Tech Stack - AngularJS, Gemini API, Firebase [Live Demo](#)

- Focused on creating a scalable and interactive application with modern AI capabilities.
- Built a responsive and dynamic user interface using AngularJS for a seamless user experience.
- Utilized Firebase for real-time backend services, including user authentication and database management.

E-waste Facility Locator

e-waste-facility-locators.web.app

Tech Stack - Angular, Google Maps API, Firebase [Live Demo](#)

- Created a full-stack web application to help users locate nearby e-waste recycling centers.
- Implemented a dynamic map-based interface using AngularJS for easy navigation and information display.
- Used Firebase's Realtime Database to store and sync facility information for all users.
